Government of India
National Commission for Protection of Child Rights
2nd & 5th floor, Chanderlok Building, 36 Janpath, New Delhi-110001

Report of the Visits undertaken in Tamil Nadu during lockdown period
By

Dr. R.G.Anand
Member, Child Psychology & Sociology, NCPCR

OBJECTIVE

National Commission for Protection of Child Rights (NCPCR) has been established under the Commission for Protection of Child Rights (CPCR) Act, 2005 to ensure that all laws, policies, programmes, and administrative mechanisms are in consonance with the Child Rights perspective as enshrined in the Constitution of India. One of the mandates of the Commission u/s 13(1) of CPCR Act, 2005 is to inquire into matters relating to deprivation and violation of child rights.

To assess and to ensure psycho-social wellbeing and safety of vulnerable children during extraordinary situation of COVID 19 pandemic, Dr. R.G.Anand, Member Child Psychology & Sociology, NCPCR visited quarantined children in Child Care Institutions (CCIs) and hospitals of 36 Districts of Tamil Nadu.

During the said visits it was observed that precautionary measures prescribed by the Ministry of Health and Family Welfare (MoHFW) were not properly followed. In several of these CCIs and hospitals visited, there were no/ inadequate number of hand sanitizers, face masks, PPE kits. Also, basic essentials such as adequate quantity and quality of food items were not available and there was limited awareness regarding the pre-cautionary measures to be followed as prescribed by the Government in these CCIs and Hospitals. During interactions with children, it was found out that many of them were experiencing emotional issues such as anxiety, distress, fear and confusion due to prevailing global situation of this pandemic.

Dr. R.G Anand, Member, Child Psychology & Sociology had a review meeting with the concerned District officials- DM, SP, DCPO, CWC, CMHO and related officials of all the Districts to review and monitor the prevailing issue of health, hygiene and psychosocial issues among children during COVID-19 pandemic in Tamil Nadu. Children living in quarantine in CCIs and hospitals were provided with hygiene kit, masks, sanitizers etc and all essentials viz; food etc by Member, Dr. R.G.Anand.

RECOMMENDATIONS

State Government, Tamil Nadu has been recommended to issue necessary directions to all concerned officers of Government of Tamil Nadu to ensure that requisite remedial measures as prescribed by the Ministry and NCPCR to be followed during COVID-19 are followed by all CCIs and Hospitals and basic essentials are provisioned in these facilities. To deal with psychological issues and provide support to the children who are quarantined in CCIs or at hospitals, required counselling through district level counsellors, or facilities available by means of tele-counselling, online or facilities from private counsellors may be made accessible to children.

Details of the visits carried out by Dr. R G Anand, Member, NCPCR

S. No.	Date of Visit	Place of Visit	Purpose of Visit
